LOCAL AND GENERAL NEWS.

THE FARMERS ARE GONE

Resolutions Adopted Last evening the delegates to the Illi-

nois State Farmers' Alliance held an extra serssion at the city hall, at which many speeches were heard. It was voted to hold the next meeting

the treasury for each alliance organized. H. A. Kyser for the 10th district, S. A. Kirkpatrick for the 15th, and J. H. Wetzell for the 7th, were appointed state organizers Senator Streeter gave an address on the financial question. The executive committee was authorized to appoint a state purchasing agent to select agricultural implements for members of the alliance, and it was resolved to buy twine of a factory located in Champaign county. A resolution of thanks for the use of the city hall was adopted

During yesterday afternoon the following permanent officers were elected President-A L. Brunson, of LaSalle

county \ice-President-W. N. Bowers, of Champaign county, Secretary—S A. Kirkpatrick, of May-

view, Champaign county
Trausurer—John McKenner, of Prairie
Home, Macon county
Delegates to the National Convention at St. Louis, Dec 3—Senator A. J. Streeter, S. A. Kirkpatiick and W. N. Bowers. Alternates—Patrick Griffin, of Moultrie county, A. E. Brunson and J. McKennar. The delegates were instructed to work for a confederation of all alli-inces in the United States,

Senator Streeter introduced a resolution favoring Chicago as the place for holding the world's fair in 1892, and it vas unanimously adopted

There was general talk against lightning rod swindlers and loan association parties who tempt farmers to mortgage their farms to get money for which they really have no need. It was the sentiment that every farmer ought to have enough horse sense to guard his own interests and not allow himself to be swindled by any scheme or by any man-

Delegate Talbott, of DeWitt county, suggested that the State Alhance should establish a grain office in Chicago, or at some other central point, and that the secretary in charge act as the central commission man for all farmers in the alliance That suggestion aroused a reezy discussion, which ended in smoke, s action was deferred until the points could be discussed in the local alliances. Mr. lalbott thought the idea a good one. He believed the farmers could get a fair price for their products in this way, and that sales could be made and grain shipped direct to the purchaser from any point in the state by the alliance commission man giving orders.

THE RESOLUTIONS They were quite lengthy, but all were adopted. They call for legislative and other reforms; for the reduction of the surplus, the free comage of silver with gold, reduction of taxes on the necessities of life, rather than on spirits and whisky; the removal of the double taxation on mortgages and real estate—taxes on all the farmer owns and all he owes, and pointing to the Massachusetts plan as a remedy, favoring a graded income tax, calling for a reduction of freight and passenger rates, for the government control of trunk lines of railways and the telegraph system, for the early completion of the Hennepin canal, for legislation that will better control the liquor traffic, for the improvement of the puband intellectual advancement; recognizing the last legislature for laws enacted against the bogus butter fraud, calling for a fair demand for labor and fair pay, the election of United States senators direct by vote of the people, arging the adoption of the Australian system of voting, calling for the use of uniform text books in the schools, and endorsing the Myers school book bill, at the same time condemning the legislature for not p saing the bill and the senate especially for not calling up the bill for action, closing with the demand that the 1990 census shall show what proportion of the farmers own the lands and what proportion are tenants, and what lands are

mortgaged. The constitution and by-laws were

presented and adopted. Ballard's Snow Liniment.

OUR competitors are kindly helping us at their expense, to advertise and spread the news, that we are selling out to quit. They have accused the people who buy of us of being fools. (See their ads. in Herald Nov. 17, and other papers). We are selling better Boots and Shoes than those men (who charge the people--our customers-with being fools), have got in their stores, and we are selling them for less money than they can buy them; that's what sets them crazy, and causes them to abuse the people that they say they want to continue making their living off of in future. I was in Decatur 21 years and have sold more good boots and shoes in that city than any other man now living. All my enemies are reduced down to three or four in number, and their only grievance is that I have supplied goods to the people at low prices. I am so situated as to be able to do it and the people and my competitors all know that I clinch what I say by making the low prices on the goods. Over one hundred have expressed the hope in the last few days that I would not remove my shoe business from Decatur. I shall at least stay there long enough to make it hot for those competitors who accuse my customers of being fools.

THE TRIAL OF THE INSURRUCTIONISTS

The Killing of the White Bosses the Result of a Conspiracy Deliberately Entered Into to Avente Ill-Treatment.

BALTIMORE, Md., Nov. 21.—The trial of the eighteen Navassa Island rioters was resumed yesterday in the United States Court. The Government offered in evidence the certificate from the State Department of the discovery of the Navassa Island by Peter A. Duncan in 1856, the proclamation by the State Department and the charter of the Na-

vassa Guano Company.

Walter B. McAtee testified that he was the receiver of the company. The provisions sent to the island was of the same quality for officers and employes. There was a store kept on the island and goods were sold to the men at a small profit. Witness was ordered to produce the list showing profits, etc., which will be done in a few days. John W. Pead, shipping master, testi-

fied to the shipping of the men. Henry Johnson and James Bustley, employes of the Navassa Guano Company, testified as to the prisoners arriving on the United States war-ship Galena and the brigs Alice and Ro mance, and identified the men. United States Deputy Marshal Cole testified to making the arrests in Maryland waters.

The one important witness examined yesterday afternoon was William Jameon, one of the negro employes on the island. He was a Government witness, and his testimony revealed a plot to kill, and also the existence of a deplorable species of slavery at Navassa. He testified that the negroes held a meet-ing on the night of September 13, at which it was determined to kill the bosses. The one man they were anxious to kill more than any other, was James Mahon. At the Governor's yard next morning the mon were marched in single file and asked if they were willing to work. James Phillips replied: "Yes, if properly treated." They were allowed salt pork and four pleces of hard-tack a day, and if they wanted more they had to buy it. At the store extortionate prices were charged. Charles Haigh Injured.

The many friends of Charles P. Haigh, the chemist for Smith, Hubbard & Co. manufacturing pharmacists, will regret to learn that he very severely injured his spine this morning by lifting a very heavy bucket of syrup at the company's LIZZIE Evans at the Grand, Friday works, 118 East William street. He was so painfully injured that Dr. Everett J. Brown was summoned. He was taken to his boarding place, 151 Prairie Avenue. It will be several weeks before he will be able to resume his position.

He Got In. Some burglar entered the residence of Mrs. E. B. Pratt, on North Church street, last night, but so far as is known nothing was stolen. The thief entered the sitting room of G. T. Tucker and family and took therefrom Mr. T.'s vest, which he found this morning after a long search

it having been rifled of its contents and left lying on the kitchen floor. Will Visit Decatur. Rev. H A. Westall, of the Unitarian

church of Bloomington, will preach at the Universalist church next Sunday morning and evening, in exchange with Rev. Mrs. Gibb. Mr. Westall is a gentleman of wide scholarship and is held in high esteem by his people. Those who hear him will confer a favor on them-Smothered to Death.

While delivering goods for Linn & Scruggs in the fifth ward yesterday afternoon, William Thomas, in charge of the wagon, left it standing in the street and went about a block away to deliver several articles. He drove off some distance when he found that a \$45 dress pattern was missing. It is believed some thief stole the dress pattern from the wagon. It may have dropped out of the wagon,

but it cannot be found. Last night in his lecture Dr. Rush gave all Decatur physicians a splendid send-off. He recognized their ability fully, and advised every man requiring attention to patronize the home cloctors

A MYSTERIOUS CASE.

M. Miller, of Decatur, a Loser at Terre Haute.

Yesterday at Terre Baute a forged eed turned up which caused considers ble of a sensation, owing to the prominence of the parties concerned. The telegram from Terre Haute giving the particulars states that the affair is still wrapped in mystery,

The telegram says that J. M. Miller, a proom dealer, of Decatur, Ill., filed in the recorder's office there a deed to six-teen lots in the suburbe of Terre Haute, the deed purporting to be from J. D. Chestnut to Miller, executed on the 13th of last May at Wichta, Kan., for \$1600. Chestnut, who is a rich imbecile of this city, owns the property in questian, but is under the guardianship of President McKeen, of the Vandalia line. He is, therefore, incapable of making a deed. furthermore, he was not in Kansas City in May last and had not been for years. He does not know Miller, and the latter admits that he never saw him. The deed was acknowledged before one F. R. Sabin, a notary public of Sedgwick county, Kansas, on May 15, last,

Miller says he got the deed in trade, and says that he came and looked at the ground before trading. He is as yet re-ticent as to the man who swindled him, but it is evident he fell among thieves.

A clew is found to night by the statement of H. C. Hanna, of the Terre

Haute transfer company, who says that he received a letter a month ago from one Funk, a trader, of Danville, Ill., ask-ing him if a deed from John D. Chestnut amounted to anything. Mr. Hanna answered that it would not. The affair is a very mysterious one, but the indications are plain of a bold piece of rascality, in-cluding a forgery. President McKeen is pushing the matter for a full investiga-

Mr. Miller was seen at his home, No. 118 North Main street, this afternoon by the Republican reporter. He got back from Terre Haute last night. He says ne traded for the lots last May while at Wichita, a real estate man named Gray naking the exchange. He is now making irrangements to go to Wichita and locate the party who it appears has swindled him out of \$1600 worth of Kansas property. A complicated lawsuit will be the outcome of the affair if the Wichita people are responsible. It appears that since Mr. Miller traded for the Terre Hante lots, Mr. McKeen as guardian for Mr. Chestnut, has sold several of the lots to other parties and new residences have been built.

Falls and there their great sorrow came for the handsome emblematic silk banner valued at \$75, offered to the best drilled Canton of the Illinois Patriarchs Militant. There were several entries in class B, but all retired in good order, when they learned that Decatur was at the bat. Canton Decatur gave a splendid exhibition of their familiarity with the tactics and went through many evolutions that were applauded. In class A Canton Excelsior, of Chicago, won the \$75 in gold, and Archer D. Simpson, of Canton Occidental, Chicago, won the individual prize. All the prizes were formally presented by General Orendorff, at the Leland Hotel last evening, and the General was presented with a dismond badge from members of his staff.

The session of the Grand Lodge was attended by 675 representatives, the past officers increasing the number to 1000. The following officers were elected: Grand Master, J. L. Bernum, of Chicago; Deputy Grand Master, R. S. W. Wheatley, of Duquoin, Grand Warden, M. W. Shaffer, of Belleville; Grand Secretary, George M. Adams, of Bloomington; Grand Treasurer, T. B. esentatives of the male sex present to listen to the verbal presentation of the errors of life and their consequences presented by the Doctor, who has made a specialty of private diseases, the results of indescretions and excesses being pictured with stereopticon views on the canvas. The Doctor held that there was a too general disregard for the immutable laws of nature in the single life and in the marriage relation. There was a serious diplomatic scanda

at Vienna during the shah's visit, which has been kept very quiet. The Persian

minister to Austria has fallen into pe

cunjary embarrassment, as his salary of #4.000 a year is appropriated by the grant

vizier, to whom he has also to send frequent and costly presents. The minis-

ter's creditors at Vienna assembled a few days before the shah arrived and decided to send a deputation to wait upon the grand vizier with their complaint; and

accordingly that personage received them

and was handed an immense pile of the minister's unpaid bills. The result was

that the shall paul his representative's

debts instead of taking him home for ex-cention. His majesty's liberality is at-

induted to the fact that the minister at

Vienna owns a large estate on the Bosohorus so that he would certainly have

declined to accompany the shah back to

Persia. The grand vizier is said to have

told the minister that his difficulties were

entirely due to his own stupidity, as it was quite open to him to make large

sums by trafficking in Persian conces

sions, titles and decorations so long as h remained in favor at Teheran.—London

Occasionally fashions start in New York and swing through to popularity at

a pace that attracts the attention even of people who have no direct interest in the

attire of women. Such a movement occurred last year with the Jane Hading veil. The most obtuse of men discovered

that a new veil had come to town, and

began to talk about it within a month af-

ter Mme. Hading's arrival. Since that

time nothing has come up which approached the sudden popularity of the

veil until the little capes, which are just

now affected by women, came to the surface. The cape, though a single gar-

ment, looks as though composed of five

or six capes, each one an inch or two shorter than the other. They are pat-

terned apparently after the ones that have

gen worn by coachmen for the last eigh or ten years in New York, and the fash

ion is said to have been set by Lady Ber esford, the wife of one of the most en

thusiastic coaching men in Great Britain

They are exceedingly pretty and effective, and they seem to please the men. Perhaps this is one of the results aimed at.—

Boston marble dealers are enthusiastic in the extreme over the discovery, and say that hundreds of thousands of cubic

feet will be wanted annually. The work

of developing the quarry will be pushed as early as possible next spring.—Grand
